Skills

Software Development, Linux, Communication Skills, Golang, Kubernetes, Terraform, Git, Jenkins, Typescript, Python

---

Experience

GDSC Community

Web Development Intern

- Created the Community website.
- Used technologies like ReactJS, Typescript and ThreeJS. Also the backend consists of GoLang, Gin-Gorm, Postgres.

Open-Source

Glasskube

OpenSource Developer

- I solved various bugs in the project. The bugs are present in the backend, CLI, and some parts of the UI.
- I added various features to the projects.
- I learned about client-go Kubernetes. It was very useful for future projects.
- LINK to MERGED PRs

Cyclops-UI

OpenSource Developer

- Developed and Initialized the CLI for their existing backend.
- Extensive use of client-go in the CLI for CRUD operations of resources and implementing complex logics.
- Fixed some backend bugs.
- LINK to MERGED PRs

Apache DevLake

OpenSource Developer

- Solved bugs in the backend.
- Added some features in the CLI.
- LINK to MERGED PRs

Apache Eventmesh

OpenSource Developer

- Worked on the technical documentation of the code.
- Converted and wrote various documents from English to Chinese and vice-versa
- LINK to MERGED PRs

Education

Bachelor's in Technology

K.J. Somaiya Institute if Technology • Mumbai, Maharashtra
06/2026
